

If I Could Feel Your Love

G D em C
Sometimes you feel a hundred million miles from me
G D em C
Sometimes you feel so near
G D em C
Sometimes the rains come down so hard I cannot see
G D em C G D G
Sometimes the sky is clear, sometimes the sky is clear

G D em C
I'll never know the way we first began
G D em C
Before the stars were born
G D em C
You have made me free to be here where I am –
G D em C G D G
Here where I belong, where I belong

G D em G
I would dance into the burning flame
C D G D
If I could feel your touch
G D em G
I would sail into a hurricane
C D G
If I could feel your love

G D em C
How did the hope go slipping through my open hands?
G D em C
With things I could not save
G D em C
How did the truth get scattered like some grains of sand?
G D em C G D G
Tossed into a wave, tossed into a wave

CHORUS

G D em C
A broken heart can beat again in perfect time
G D em C
Blinded eyes can dream
G D em C
Even wasted wings can learn to fly again
G D em C G D G
I really do believe, I do believe
