

Keep Shining on Me

G am C D G
I've been a sailor for all of my days, I've given my life to the sea
G am C D
I have studied the way of the waves as they broke over me
G am C D G
And I have learned the song of the wind, I have longed for a breeze
G am C D G
To sail the ocean, my eyes to the sky -- my destiny

C G C G
I have relied on the light of the stars as they shown down on me
C G D em
I pray that the light of those glorious stars will always keep shining on me
C D G
Keep shining on me

G am C D G
Many a night I've sailed under the moon, I was safe by the grace of her light
G am C D
And at times an invisible hand at the helm helped me to get through the night
G am C D G
My ship has been damaged; my ship has been tossed, all of my sails have been torn
G am C D G
I have been lonely and I have been lost but I never sank in a storm

CHORUS

G am C D G
I have sailed farther than many a soul would ever believe
G am C D
And I have sailed faster than many a fool could even conceive
G am C D G
So sail me away to the edge of the world to watch the day born in the sea
G am C D G
Where the kiss of new sunshine on my morning face is sweeter than honey to me
