

Said and Done

E
I've done a lot of living and I'll do a little more

I'm still kicking so I'll see what's in store

A E
I want to take it easy but I'm gonna take it as it comes
B7 A E
Cuz I know you'll be there when everything is said and done

E
Been a little crazy, heaven only knows and

Been a little lazy, I don't have much to show

A E
But I know a thing or two and I know you are my only one
B7 A E
I know you'll be there when everything is said and done

E
My heart's been broken and repaired a time a two

I drank love potion, now I only care for you

A E
No more howling at the moon and no more crying at the sun
B7 A E
Cuz I know you'll be there when everything is said and done

E
Well, if it's trick or treat then I would rather have a treat

If it's sweet or sour then sock it to me sweet

A E
But like I said before I'll take anyway it comes
B7 A E
I know you'll be there when everything is said and done
