

Wake Me with a Kiss

E A E E7
I've sailed the seven seas of separation
A B E E7
Searched the seven skies for one bright star
A B E A
Dug through the midnight blue of desperation
f#m B
Feeling with my fingers in the dark

E A E E7
I've made my way alone across the desert
A B E E7
Climbed high on a mountain to the sun
A B E A
But I could never see how far I had to go
f#m B
And I could never know how far I'd come

A B E E7
Somehow I always know I'm only dreaming
A B E E7
And all the things I hold won't let me go
A B E A
On a bed of thorns and roses I've been sleeping
A B E
Wake me with a kiss and take me home

E A E E7
In my heart there's always been a hunger
A B E E7
In my soul there's always been a thirst
A B E A
In my bones I've always known the secret of your song
f#m B
I've sung along through better and through worse

E A E E7
So I will dream of you as I lie sleeping
A B E
Among the many cloaks that I have worn
A B E A
While I'm waiting here like this, hoping for your kiss
f#m B
The blanket of your love will keep me warm
